ABOUT ME

Highly self-motivated web & mobile developer passionate about learning the latest and greatest technologies with a flair for creating elegant solutions in the least amount of time. Enjoy creating sleek, innovative and reponsive, user-friendly applications. Team player with good communication skills but also productive when self-driven.

EXPERIENCE

Referent (Telemach Slovenija)   March 2020 - Current
Served customers by selling products and meeting customer needs in one of the biggest companies, and the biggest fixed and mobile network provider in Slovenia. Sharp interpersonal and communication skills.

Freelance Web Developer   November 2018 - Current
Developed wordpress websites for a local touristic farm resort and an authorized seller for Telemach in Slovenia. Worked on applications for school projects like smart beehive, sports scoreboard, highway power plant, LAN party etc.

PROJECTS

Musician - Guess the Song   ▶ 🌐
Cross-platform quiz game with over 7k downloads on Google Play Store

- Developed multilingual music quiz with HTML5, CSS3, Javascript and PHP with usage of SQL databases and pre-created API in backend
- Securely implemented authentication for guests and registered users
- Designed app wireframe in Figma and optimized app for speed and SEO

Weather Chamber   ⌂ 🌐
Chamber with API and mobile application for weather control

- Launched a mobile app in React Native and maintained backend with Node, Express, Firebase and live weather data from OpenWeather API
- Used functional components, react hooks and third party libraries
- Designed app wireframe in Figma

Other Projects   ⌂
Bunch of side projects on github profile

- Numberzen (Multilangual React website to work with numbers)
- Codehub (Community for developers built with React)
- Telemach Skittles (React logo maker for Telemach employees)
- My Club (React CRUD application to control players info)
